EATON

12V to 28V DC-DC Converter

\$1,149

- 40A DC/DC converter with 28V output
- Ideal for multi trailer combinations where voltage drop can occur over the combination

12040C12

WHAT IS A DC/DC CONVERTER?

A DC/DC converter takes a range of input voltages (such as 12V, 24V, or 48V) and delivers a single, stable output voltage. This ensures that sensitive vehicle electronics - like infotainment, safety systems, Trailer EBS, and controls - always receive the correct power, regardless of battery fluctuations.
