NEW TRP® STORE OPENS IN RENMARK

TRP Renmark, Store Front

The town of Renmark, situated in South Australia's rural Riverland area, is now home to a brand-new truck and trailer parts store under the globally successful TRP® brand.

The new store, which opened on September 1, is owned and operated by the Leake Group and joins the ever-expanding TRP store network throughout Australia and New Zealand, now standing at 27 stores in the region, and 356 outlets world-wide.

The TRP brand is positioned as an affordable all makes supplier of high-quality parts for prime movers, rigid trucks, and all types of trailers. The store stocks well-known brand consumables for all major truck brands as well as TRP branded parts, which come with a minimum 12-month warranty.

Anthony Dal Farra, General Manager, said "Our business has been operating for almost 75 years, and we are very proud to now have a local presence in South Australia to support our long-standing customers. Our Renmark location further strengthens our coverage along the key Adelaide – Sydney freight corridor via the Sturt Highway, complementing our existing operations in Mildura."

He added "We are deeply grateful for the overwhelming support we have received, not only from local transport operators and stakeholders, but also from the wider community. Supporting the industries that drive the Riverland is in our business' DNA — from wine grapes and citrus to almonds and broadacre crops. Across our broader network, our sites already serve these same industries, so we understand their seasonality and ensure additional parts are readily available throughout harvest and other peak periods."

The TRP Renmark store is located at:
267 Renmark Avenue RENMARK, South Australia

Come and say hello to Tyrone, Daniel and Paul –
during opening hours:

Monday to Friday: 8.00am - 5.00pm

Saturday: 8.00am - 12.00pm

24-hour afterhours call-out service.

Contact 08 7552 5021 for more information.

YOUR SPILL. YOUR RESPONSIBILITY.

According to Dangerous Goods and Environmental legislation, it is the responsibility of drivers and transport companies to clean up any liquid spills from trucks or other commercial vehicles. Failure to do so can result in heavy penalties as well as damage to the reputation of the transport company, should the incident be made public.

The ADG (Australian Dangerous Goods) code states that when transporting Class 2 – Class 8 goods in liquid form, an appropriate spill kits should be carried in case of an emergency spill. Other regulations, such as the EPA (Environmental Protection Act) 2017 and WH&S (Safe Work Australia) refer to the importance of WH&S spill kits.

Spills can occur both when the vehicle is moving or stationary and must be immediately dealt with, regardless of the location. TRP portable spill kits are an easy solution for dealing with liquid spills of up to 40 litres. TRP Spill Kits contain premium, biodegradable, organic absorbent particulate that is up to six times more absorbent than kitty litter to quickly clean up liquid spills.

For further information on TRP Spill Kits please visit:
trpparts.com.au
